I have had the pleasure to work with Jason Salvato for 18 years. He has been involved in all of our residential and commercial flooring projects. His services are invaluable and we are always extremely pleased with the final results.

The quality of work he performs is always top notch. His communication is beyond effective. He keeps us closely informed on schedules, delivery dates, and project completion. He makes himself available to answer and explain the project from start to finish. He is committed to generating a quality outcome, rather than maximizing his profit margin. If an unforeseen problem surfaces, Jason works diligently with us to identify a solution. His commitment to home and property owners is clearly evident in his work. He leaves his workspace neat and tidy and we are never left with a mess. We will never hesitate to call him for any size of flooring project and his work ethic leads to him to always go that extra mile.

I highly recommend Salvato Flooring and always look forward to working with Jason!
